

Now concerning the DAV Department of Florida Convention, during which you claim you were stopped from voting. Actually, and I can say this with much veracity, since I was and still am the Credentials Committee Chairman for DAV Department of Florida, you were not an authorized "delegate" from your Chapter at that Convention that is why you were not permitted to cast a vote and that is what caused a recess of the Department Convention, with instructions disseminated from the Judge Advocate of the Organization and the Department Adjutant to the delegates in attendance and the audience, on the proper voting procedures, for a caucusing of delegates prior to voting for candidates for offices being sought for that year.
